Berlin, Feb. 19.—Dr. Friederich Franz Friedmann in an interview to-day told of his plans for visiting America. He had heard, he said, that if he came here he would be assessinated, in order that his remedy might be taken away from him. He introduced Frau Zoch, who, he said, knew more about his remedy than any one slea, and would be the noisy core able to manufacture it if he were to die. "I am a fatalist," he said, "and I know that if I am to be assassinated in the prevent it. Physicians here tell me to prevent it. Physicians here tell me to wait until the lith; and I will be made a privy councillor to the Naiser; but I leave that to fate. High officials look down on me because I am a young man. Before the conduction of the interview Frau Zoch announced that Dr. Friedmann would leave for New York Nefore the end of the coming week, but whether whe would accompany him was a mainty of the settled.

New Eastern Ballad Sung by the Evans' Minstrels Last Evening.

Evans' Minstrels Last Evening.

A new song, said to be the latest New York sensation, entitled "Why Did You Make Me Care?" was introduced by the Evans' Minstrels at the Columbia Theater last evening, which elleited considerable applause. It is a ballad of the higher popular order and, while possessing a text of the said or plaintive style, is endowed with a very catchy melody. Following are a few bars of the song clipped from a copy of the music:

Why Did Vos Makes Mac Care? Why Did You Make Me Care?

Why did you make me care, Why bring me dreams so sure,... told as that sweethearts about foever part, Then

6111611111 Why should we meet no Why should we meet no smart....

Why can't we love as he form The The song was quite on here two capabily rendered by Mr. Vaughn Camfort, a tener with a very resonant voice, who was necessitated to respond with the chorus several larly joining in the applause. The balls is on the order of "Hilver Threads Amung the Gold" and, although containing a very ford and effective climax, is written in only one octave, with no earteenly high notes in the entire song.
